2014 ETC Annual Report of Coleman County Telephone Cooperative, Inc.

Study Area Code 442057

Dear Ms. Dortch:

On behalf of Coleman County Telephone Cooperative, Inc. ("Coleman County"), JSI files the attached confidential and redacted versions of the FCC Form 481 ETC annual reporting information pursuant to sections 54.313 and 54.422 of the Commission's rules. Coleman County seeks confidential treatment under Protective Order for section 54.313(f)(2) financial information. The redacted version is also being filed this date via the FCC's Electronic Comment Filing System. In addition, attached is a letter requesting confidential treatment under Sections 0.457 and 0.459 of the initial section 54.202(a) Five-Year Service Quality Improvement Plan.

Please direct any questions regarding the filing to the undersigned.

Sincerely,

John Kuykendall JSI Vice President

Re: WC Docket No. 10-90, WC Docket No. 11-42

2014 ETC Annual Report of Coleman County Telephone Cooperative, Inc.

Study Area Code 442057 Request for Confidentiality

Dear Ms. Dortch:

John Staurulakis, Inc. ("JSI"), on behalf of its client Coleman County Telephone Cooperative, Inc. (the "Company") hereby requests, pursuant to Sections 0.457 and 0.459 of the Commission's rules, 1 withholding from public inspection certain information contained in an attachment to the above referenced reporting requirement. The Company provides the following in support of its request, numbered consistent with the subparagraphs of Section 0.459(b).²

- 1. The information for which the Company is seeking confidential treatment is an attachment to the Company's annual reporting information pursuant to Sections 54.313 and 54.422 of the Commission's rules ("Report").³
- 2. Rate-of-Return Eligible Telecommunications Carriers ("ETCs") must file with the Commission an initial section 54.202(a) Five-Year Service Quality Improvement Plan ("Five-Year Plan") which is contained in the attachment to the 2014 Report.⁴
- 3. The information contained in attachment for which the Company seeks the withholding from public inspection is the entirety of data pertaining to the Company's Five-Year Plan provided at FCC Form 481 Line 112 attachment. Information of this nature is confidential commercial information routinely withheld from public inspection.

¹ 47 C.F.R. §§ 0.457, 0.459.

² 47 C.F.R. § 0.459(b)(1) through (9).

³ 47 C.F.R. §§ 54.313, 54.422.

⁴ See In the Matter of Connect America Fund, WC Docket No. 10-90, Order DA 14-591 (rel. May 1, 2014).

4. With respect to identifying the degree to which the subject attachment concerns a service that is subject to competition, the information is of a financial and competitive nature regarding the provision of telecommunications services. The Line 112 attachment contains competitively sensitive information related to proposed improvements or upgrades and maintenance the Company's network.

In its March 5, 2013 Order, the FCC. The FCC specified that for rate-of-return carriers, the five-year plans "should describe the carrier's network improvement plan, which should provide greater visibility into current plans to extend broadband service to unserved locations in rate-of-return service territories." Accordingly, because the Company is a rate-of-return carrier, it must file a five-year service improvement plan which contains proprietary, competitively sensitive information related to the Company's existing network including the specific locations of customers as well as describe proposed improvements or upgrades and maintenance of its network throughout its service area. Specifically, this information sets forth services provided by the Company over its existing network including specific locations of customers as well as planned network improvement and maintenance for the years 2015 through 2019 including project start and completion dates, population that will be impacted by the improvements and upgrades at the wire center level and projected capital costs associated with the improvements and upgrades and operating costs associated with maintaining the network including depreciation for investments that have already been made. As such, this information contains competitively sensitive information related to the Company's existing network as well as detailed plans at the wire center level for network upgrades and maintenance projected for the years 2015 through 2019.

- 5. With respect to identifying possible exposure to competitive harm, the information contained in the Line 112 attachment is information that is not customarily released to the public. This information is proprietary to the Company, is unique to the Company's serving territory and is only known to the Company and its authorized agents. If the Information is not protected, it would have economic value to potential competitors who would be able to target their marketing to specific customers. In a competitive telecommunications marketplace, this type of information is highly sensitive. If publicly disclosed, it would enable competitors to craft business plans that capitalize on their knowledge of the locations of the Company's customers which would place the Company at a competitive disadvantage.
- 6. With respect to steps the Company has taken to ensure against unauthorized disclosure of the information contained in the attachment, the Company is filing the attachment under seal. The Company uses the information contained in the Five-Year Plan to ensure that its customers continue to receive state-of-the-art high quality telecommunications and broadband services that the Company has

⁵ See Connect America Fund et al., WC Docket 10-90 et al., Order, DA 13-332 (rel. Mar. 5, 2013) ("March 5, 2013 Order") at para 9 citing Section 54.202(a) (1) (ii).

been providing to them for many years as well as to satisfy mandatory reporting requirements and does not share the information for which protection is sought. The Company protects the secrecy of this information with a security protocol that ensures the information is not inadvertently disclosed or disseminated. Only directors, managers and employees with a direct need to know are authorized to access the information.

- 7. Any previous versions of this information are not publicly available.
- 8. Because the information is not routinely available, a need exists for maintaining the confidentiality of this information permanently.
- 9. Not applicable.

Based on the preceding, JSI respectfully requests on behalf of the Company that the Commission grant confidential treatment under Section 0.459 to Company's Five-Year Plan provided at FCC Form 481 Line 112 attachment.

Please contact the undersigned with any questions regarding this request.

Sincerely,

John Kuykendall JSI Vice President 301-459-7590

COLEMAN COUNTY TELEPHONE COOPERATIVE, INC. (SAC 442057) ATTACHMENT - LINE 112 FIVE YEAR SERVICE QUALITY IMPROVEMENT PLAN

ATTACHMENT REDACTED IN ENTIRETY

Coleman County Telephone Cooperative, Inc.

Study Area Code: 442057

Response to Line 510 - Service Quality Standards and Consumer Protection Rules

Compliance - Voice and Broadband

In establishing this certification in its 2005 ETC Order, the FCC found that an ETC must

make "a specific commitment to objective measures to protect consumers." ² The FCC found that

for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy

this requirement and that the sufficiency of other commitments would be considered on a case-by-

case basis.³ In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is

subject to consumer protection obligations under state law, compliance with such laws may meet

our requirement."⁴

Coleman County Telephone Cooperative, Inc. ("Cooperative") hereby certifies that its

voice service complies with applicable service quality standards and consumer protection rules

under the Texas Administrative Code, Title 16, Part II, as established by the Public Utility

Commission of Texas. These obligations include, but are not limited to, the following: (1) filing

a Local Exchange Tariff which discloses rates, terms and conditions of service to customers

pursuant to Subchapter J requirements in Sections 26.201-26.230; (2) adherence to state consumer

³ *Id.* The FCC noted that under the CTIA Consumer Code, wireless carriers agree to: "(1) disclose rates and terms of service to customers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; and (10) abide by policies for protection of consumer privacy." *Id.* at n. 71.

protection requirements governing telephone providers as identified in Subchapter B, in Sections 26.21-26.37; and (3) service quality standards requirements as identified in Subchapter C, Sections 26.51-26.57. In addition, the Cooperative complies with numerous federal consumer protection standards including, but not limited to: (1) Truth-in-Billing Rules outlined in 47 CFR § 64.2401; and (2) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

For its broadband service, Cooperative hereby certifies that while there are no applicable state broadband service quality standards and consumer protection rules yet established under the Texas Administrative Code by the Public Utility Commission of Texas, the Cooperative discloses rates, terms and conditions on its public web site and the Cooperative complies with applicable federal and state customer protection standards generally applicable to all businesses operating in Texas. In addition, the Cooperative adheres to consumer protection obligations for broadband services under federal law. These obligations include, but are not limited to, the following: public disclosure of accurate information regarding network management practices, performance, and commercial terms of broadband internet access services; as a means of providing sufficient information for consumers to make informed choices regarding use of such services, and for content, application, service and device providers to develop, market, and maintain internet offerings as specified in F.C.C. 47 C.F.R. Part 8 §8.3.

Response to Line 610 - Ability to Function in Emergency Situations

for Voice and Broadband

Coleman County Telephone Cooperative, Inc. ("Cooperative") hereby certifies that it is

able to function in emergency situations as set forth in the Code of Federal Regulations, Title 47,

Part 54, Subpart C, §54.202(a)(2)¹ and the Texas Administrative Code. The Cooperative's

network is designed to remain functional in emergency situations without an external power

source, is able to reroute traffic around damaged facilities, and is capable of managing traffic

spikes resulting from emergency situations as required by Section 54.202(a)(2). The Cooperative

can change call routing translations as needed to reroute traffic around damaged facilities.

Changing call routing translations also allows the Cooperative to manage traffic spikes throughout

its network, as emergency situations require.

Specifically, the Cooperative is able to function under emergency operations in accordance

with Public Utility Commission of Texas Substantive Rules §26.51 Reliability of Operations of

Telecommunications Providers and §26.52 Emergency Operations which include obligations for

continuity of service and emergency operations planning and service provision capability for

dominant carriers. Any central office not equipped with permanently installed standby generators

contains as a minimum four hours of battery reserve without voltage falling below the level

required for proper operation of all equipment. In addition, all central offices without installed

-

¹ Section 54.202(a)(2) requires ETCs that are designated by the Commission to "demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."

emergency power facilities have a mobile power unit available which can be delivered and connected on short notice.

The Cooperative's standby generators and battery back-up equipment support both voice and broadband network equipment in the event of an emergency situation.

IV. LIFELINE SERVICE

A. GENERAL

- 1. Lifeline Service is a retail local service offering sponsored by the FCC and available to qualifying low-income consumers.
- 2. Consumers qualifying for Lifeline Service are offered the services or functionalities enumerated in 47 Code of Federal Regulations §54.101(a)(relating to Supported Services for Rural, Insular and High Cost Areas).
- 3. The Cooperative shall offer toll restriction at no charge to all qualifying low-income consumers at the time such consumers subscribe to Lifeline Service. If the consumer elects to receive toll restriction, that service shall become part of the consumer's Lifeline Service.
- 4. A customer otherwise eligible to receive the Lifeline Service shall not be prohibited from obtaining and using telecommunication equipment and services designed to aid such customer in utilizing qualifying telecommunication services.
- 5. Lifeline Service rate reductions only apply to basic service and do not apply to long distance service, 976 and other information provider services, or any other optional services or functionalities (i.e., custom calling features, construction, etc.) which may or may not be tariffed. Customers may subscribe to such services including bundled service, where available, at their discretion, although the Lifeline Service reduction will only apply to the basic service charges of the bundled service.
- 6. The Lifeline Service rate reductions do not apply to service connection charges, except that customers eligible for the Tribal Link Up America program may receive a reduction in applicable service connection charges, as set forth in Section 5 of this tariff.
- 7. Lifeline Service will not be available on a retroactive basis except at the direction of the Low Income Discount Administrator or the Commission.
- 8. The Cooperative will waive monthly number portability charges, subject to its tariff, for the Lifeline customer.

B. Eligibility Requirements (Continued)

- 3. Procedures for Establishing Lifeline Discounts (Continued)
- (b) LIDA shall provide the Cooperative with a monthly list of consumers eligible for Lifeline Service.
- (c) Consumers who do not participate in one of the designated programs but who meet annual household income T qualifications by having an income at or below 150% of the federal poverty guidelines, may establish eligibility for Lifeline Service by contacting the LIDA.
- effective September 1, 2001 allows the Cooperative to move Tel-Assistance customers to Lifeline Service. The Cooperative's exchanges of Burkett, Mozelle, and Santa Anna, provide a customers' local service rate under Tel-Assistance that is a greater benefit, therefore, they will continue to receive the grandfathered Tel-Assistance rate. For remaining Tel-Assistance customers who would not receive a greater benefit under Tel-Assistance Service rates, customers will be grandfathered at Lifeline rates. Rates will apply until the customer's service is discontinued or the customer is determined ineligible under this Section.
